

Performance Management – Retail Banking

## Why branch-based banks need a footprint league table

National league tables show rankings across all banks but, by definition, don't account for where you participate. Arguably more relevant is to understand competitive performance within your bank's footprint.

Take deposits for SunTrust, BB&T, and the new, merged entity 'Truist' as an example:

Based on national league tables, the #8 and #9 branch-based banks merge to create the 4th biggest branch-based bank in the US.

|               |                    |   | Nation                               |  |  |
|---------------|--------------------|---|--------------------------------------|--|--|
| Before Merger |                    |   |                                      |  |  |
| Rank          | Bank Name          | Total Local<br>Market<br>Deposits<br>(\$MM) | Share of<br>Local Market<br>Deposits |  |  |
| 1             | Bank of<br>America | 739,185                                     | 9.9%                                 |  |  |
| 2             | Wells Fargo        | 728,640                                     | 9.7%                                 |  |  |
| 3             | JP Morgan<br>Chase | 676,311                                     | 9.0%                                 |  |  |
| 4             | PNC                | 195,903                                     | 2.6%                                 |  |  |
| 5             | US Bancorp         | 174,017                                     | 2.3%                                 |  |  |
| 6             | Citigroup          | 167,641                                     | 2.2%                                 |  |  |
| 7             | TD Bank            | 162,152                                     | 2.2%                                 |  |  |
| 8             | BB&T               | 142,519                                     | 1.9%                                 |  |  |
| 9             | SunTrust           | 122,756                                     | 1.6%                                 |  |  |
| 10            | Fifth Third        | 96,636                                      | 1.3%                                 |  |  |

Based on 2019 FDIC deposit data

**Footprint league tables** show that Truist will achieve the #1 position in its footprint, overtaking Bank of America and Wells Fargo. One of the clear benefits of this merger is creating a bank that is #1 in the markets it serves.

| Footprint League Tables |                    |   |                                      |  |      |                    |   |                                      |  |   |      |                    |   |                                 |
|-------------------------|--------------------|---|--------------------------------------|--|------|--------------------|---|--------------------------------------|--|---|------|--------------------|---|---------------------------------|

Based on 2019 FDIC deposit data

## Your footprint

Understanding your rank and competitors' rank – *in your footprint* – takes much of the guess work out of understanding relative performance and leads to more actionable insights. Bank-tailored league tables also provide a more compelling and differentiated investor story.

National league tables are, and will remain, an important performance indicator, but absent a footprint-based view, is like driving with one eye closed.

## About BankVQ

BankVQ is the #1 resource for retail banking data analytics, bespoke for every bank. Our proprietary analytics are underpinned by multiple public data sources, linked together and organized at the intersection of bank and local market – including 4000+ banks, 88,000 branches, and 20,000 zip codes. BankVQ analytics support a broad range of strategic management, performance management, and M&A applications – tailored to account for each bank's footprint. Access BankVQ through subscription to the online interface, or by purchasing bank specific reports. Analytic output files are always included to integrate with a bank's internal information. www.bankvq.com.
